SUMMARY

Mobile Engineer with 2.5+ years shipping production Flutter applications to the App Store and Play Store. Experienced across the full mobile lifecycle: architecture, REST API integration, push notifications, performance optimization, and release management. Strong grounding in Clean Architecture and BLoC/Provider state management, with additional full-stack experience in Python and FastAPI for backend integration work.

WORK EXPERIENCE

Full Stack Developer / Consultant (Contract)

01/2024 – Present

DevAnsh Digital Solutions LLP

Remote

- Developed and maintained production Flutter applications for Android, iOS, and Web, integrating REST APIs, Firebase services, and backend systems.
- Built reusable widgets and scalable application architecture following Clean Architecture; owned features end-to-end from build through production support.
- Performed debugging, testing, performance optimization, and production support across releases.

Mobile Application Developer

04/2025 – 06/2025

Snabbt

Andheri, India

- Built the Snabbt OG mobile app from scratch using Flutter & Dart, following modular architecture.
- Implemented role-based authentication, FCM push notifications, background handlers, and secure local storage.
- Optimized application performance by reducing widget rebuilds and improving asynchronous operations; owned production deployment and release management.

Mobile Application Developer

06/2024 – 04/2025

NymbleUp

Mumbai, India

- Developed and maintained production-grade SaaS cross-platform apps using Flutter & Dart, implementing BLoC for attendance, scheduling, and leave management modules.
- Migrated large modules to Clean Architecture, improving maintainability, testability, and scalability.
- Optimized Flutter animations, UI rendering, frame performance, and memory usage using Flutter DevTools.

Associate Software Engineer (Internship)

04/2023 – 06/2023

Navaantrix

Pune, India

- Developed full-stack application features using Flutter, CodeIgniter, jQuery, MySQL, and REST APIs, including CRUD operations and form validation.

SKILLS

Mobile: Flutter, Dart, Android, iOS, Cross-Platform Development, Responsive UI, Custom Widgets, Clean Architecture

State Management: BLoC, Provider, Riverpod (Basic), Dependency Injection

Integrations: REST APIs, Firebase, FCM Push Notifications, Authentication, SQLite, WebSockets, Offline Storage, Deep Linking

Performance & Release: Performance Optimization, Flutter DevTools, Play Store Deployment, App Store Deployment, Crash Debugging & Production Support

Backend & Data: Python, FastAPI, Node.js, React.js, MongoDB, PostgreSQL

Tools: Git, GitHub, GitHub Actions, CI/CD basics, Postman

PROJECTS

GoodHabitsApp — Flutter Mobile Application

- Built a habit-tracking application using Firebase, BLoC, Clean Architecture, and Dependency Injection, with daily streaks and reminder notifications.

Nexus AI Voice Agent — React, FastAPI, Gemini, Deepgram, FAISS, MongoDB

- Built the admin dashboard and backend API layer for an AI-powered platform, integrating REST APIs, JWT authentication, and real-time monitoring.

EDUCATION

Master of Computer Applications, Pune University (CGPA: 8.78)

2021 – 2023

Bachelor of Science in Information Technology, Mumbai University (CGPA: 8.88)

2018 – 2021
